Trusted-scope original vs V2 comparison

Replacement for the invalid comparison PDF

Scope rule: Greatstone/SCK is the primary asset-reference source; ReDMCSB is the primary code/usage reference; Firestaff local exports are raw material only.

This PDF includes only comparison pages whose original-side mappings are confirmed by GRAPHICS_DAT_EXPORT_MAPPING_AUDIT.md and whose Firestaff V2 counterpart is explicit in t

Included trusted mappings

- 0009 Spell area background
- 0010 Action area background
- 0033 Slot box normal

Intentionally excluded in this trusted PDF

- 0020 panel empty — trusted mapping, but no clear like-for-like V2 asset counterpart is present in the repo yet.
- 0035 slot box acting hand — trusted mapping, but no distinct acting-hand V2 asset counterpart is present in the repo yet.
- 0303 stone lock left side — trusted mapping, but no corresponding Firestaff V2 ornate-lock comparison asset is present in the repo yet.
- 0304 stone lock front — trusted mapping, but no corresponding Firestaff V2 ornate-lock comparison asset is present in the repo yet.
- 0000, 0007, 0008, 0034, 0078, 0079 — intentionally excluded because the audit marks them suspicious or confirms the prior comparison mapping was wrong.

Output: docs/reports/original-vs-v2-4k-asset-comparison-trusted-scope.pdf

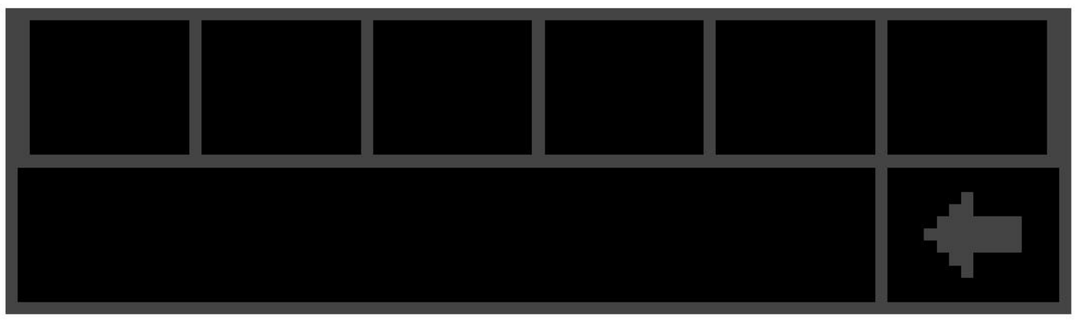
0009 — Spell area background

confirmed-correct mapping

Evidence: ReDMCSB C009_GRAPHIC_MENU_SPELL_AREA_BACKGROUND; export size 87x25; Firestaff usage comments align.

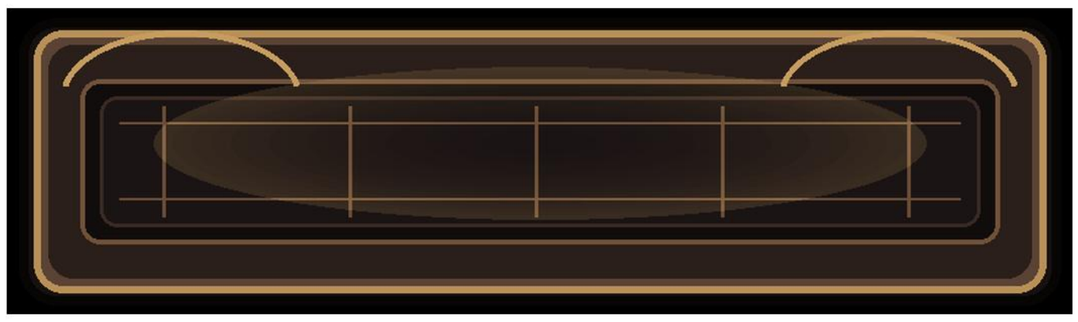
Trusted original-reference anchor. Included because the mapping is confirmed by the audit and the V2 asset is an explicit spell-area base counterpart.

Original reference asset



Source: extracted-graphics-v1/pgm/graphic_0009.pgm

Firestaff V2 spell area base



Source: assets-v2/ui/wave1/spell-area/masters/4k/fs-v2-spell-area-base.4k.png

Trusted-scope note: this page claims only that the original-side mapping is trustworthy and that the shown Firestaff V2 asset is the intended counterpart. It does not claim f

0010 — Action area background

confirmed-correct mapping

Evidence: ReDMCSB C010_GRAPHIC_MENU_ACTION_AREA; export size 87x45; Firestaff usage comments align.

Trusted original-reference anchor. Included because the mapping is confirmed by the audit and the V2 asset is an explicit action-area base counterpart.

Original reference asset

Source: extracted-graphics-v1/pgm/graphic_0010.pgm

Firestaff V2 action area base

Source: assets-v2/ui/wave1/vertical-slice/action-area/masters/4k/fs-v2-slice-action-are

Trusted-scope note: this page claims only that the original-side mapping is trustworthy and that the shown Firestaff V2 asset is the intended counterpart. It does not claim f

0033 — Slot box normal

confirmed-correct mapping

Evidence: ReDMCSB C033_GRAPHIC_SLOT_BOX_NORMAL; export size 18x18; frontend slot-box selection logic matches.

Trusted original-reference anchor. Included because the mapping is confirmed by the audit and the V2 asset is the direct standard/base counterpart.

Original reference asset
